We have combined soft forms, natural materials, and colors to create a user-friendly work environment. The Lenta Product Group perfectly meets various office needs. With its unique and visually appealing design, it enriches and highlights any space.

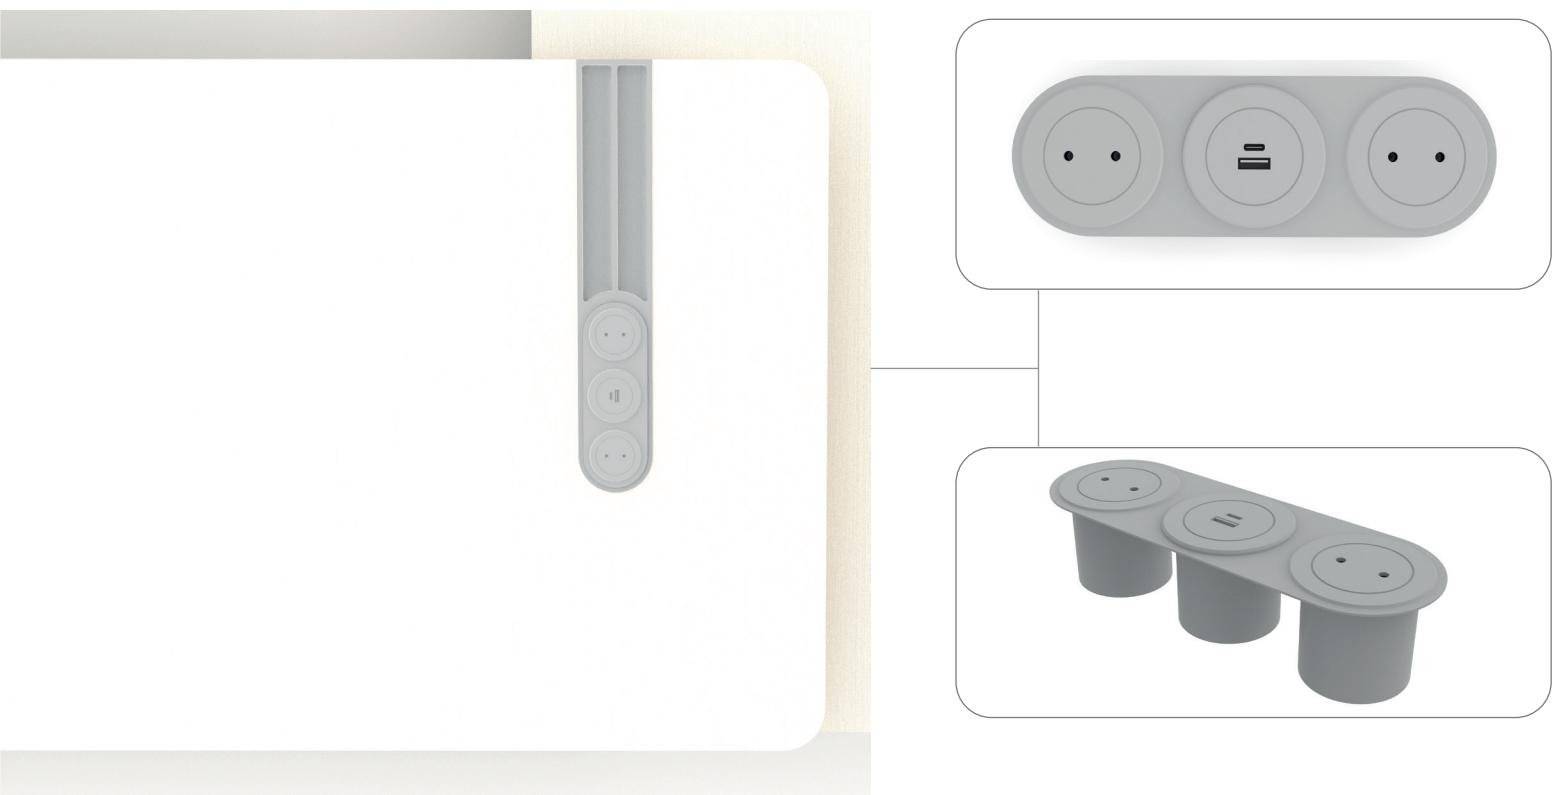

Lenta stands out as a product group that embodies sustainability through simplicity, free from exaggerated details, while conveying these principles to its users.

The Lenta Executive Desk is designed to enhance order and efficiency in the workplace with its extensive storage spaces. Drawers, file cabinets, upper shelves, and cable management systems keep office supplies and documents organized and easily accessible. This functional and aesthetic design ensures maximum comfort and organization in professional workspaces.

It offers a comfortable working experience with its large working area, ergonomic height and smart cable management system.

Circular Line

With the USB A/C module that will be added to the Lenta executive desk, Circular Line, we have the chance to save space and add 1 more socket to its content. It provides a stylish appearance on the product with its smooth surface.

Lenta eliminates the typical cluttered cable appearance with its integrated electrification system within the panel. As a whole, the product group emphasizes the concept of minimalism through its accessories and structure.

The Lenta work desk features a modern and minimalist design. Its clean lines and elegant details contribute to a professional and contemporary look in your office. Combining elegance and functionality, it makes workspaces more efficient and organized.

Vega

Clip Line is stylish and useful with its close position to the surface. Contents, USB A/C module (2ŞBK +1USB -A/C + 1CAT6)

The Lenta Meeting Group is a stylish and functional collection designed for modern meeting rooms and business discussions. This group provides your office with a professional atmosphere while ensuring productive and comfortable meetings. With its aesthetic design, ease of use, and high quality, it stands out in the workplace.

Desktop

The desktop socket system can be easily installed on the product group without any labor.
(2ŞBK +1USB - A/C)

Large table surfaces and comfortable chairs ensure that meetings are more productive and comfortable. Integrated cable management systems and side units provide easy access to technological equipment used during the meeting.

Lenta meeting tables bring together maximum concentration and aesthetics in meeting rooms with their minimal and elegant design.

Wooden table leg, first class oven box is made of solid ash wood material. Under the legs, height adjustable bingo glides made of plastic material are used.
