

# SQUID HANGER

Technical Data Sheet

## SQUID HANGER

Designer: Selami Gündüzeri

The Squid Hanger family is inspired by the elegant and dynamic form of a squid. The long, flowing lines and sea-compatible shape of the squid are reflected in the aesthetic structure of the hanger. The branch-like lines of the rack provide ease of use while also adding a modern and unique touch to your space. The squid's natural movement and flexibility create both a functional and aesthetic balance in the design of this hanger. It offers both a stylish storage solution and an elegant marine-inspired touch for your space.

### DESCRIPTION

#### METAL STRUCTURE

The body is made from Q19 mm diameter, 1.5 mm thick DKP pipe, shaped with CNC bending using special molds. All metal parts are coated with a 90-micron thick electrostatic powder coating with a textured finish.

#### ACCESSORIES

Wooden end caps are used at the contact points where the product meets the floor and at the ends of the hooks. These caps are made from polished ash wood.

The coat rack is equipped with a hook system, made from polished ash wood using a lathe method to perform the hanging function.

#### USAGE AREA

The Squid Hanger is designed for indoor spaces such as executive offices, meeting rooms, workspaces, and common areas.

#### DESIGNER / COLLECTION

The Squid product group was designed by Selami Gündüzeri for the 2025/2026 collection.
